

WELCOME TO VERSA POINTE

DESIGNED FOR EXECUTIVES, BY EXECUTIVES

Very few executives and professionals seek help, an estimated 1 in 10. Stigma, pride, fear, and shame are just a few of the barriers. This population is intensely resistant to treatment, suffering from a phenomenon that has come to be known as "Executive Addiction." While the founders of Versa Pointe understand that a beautiful environment alone will never cure addiction, we know firsthand that by removing the barriers to entering treatment, we are offering a chance to those who would otherwise perish or continue to suffer in silence.

At Versa Pointe, we have assembled a team of dedicated clinical experts who work side-by-side with us, supported by our 24/7 in-house residential team, all while surrounded by 20 lush acres in one of the most secluded, private, and discerning environments South Florida has to offer. 13,000 square feet of living space in Jupiter, Florida, houses 5 private suites, all curated to perfection with private chefs, housekeeping, and white-glove concierge services. Resting at the pinnacle of elevated luxury, our 14-day minimum program is intentionally designed to fit seamlessly into demanding and discerning lifestyles.

EVERY DETAIL MATTERS

DESIGNED FOR EXECUTIVES, BY EXECUTIVES.

Founded by Marc Kantor and Michael Schlossman, two nationally recognized experts in the field of behavioral healthcare, Versa Pointe is curated from their own personal journeys, professional backgrounds, and ongoing passion for helping others. Providing quality programming for each client - and support for their families - is Michael and Marc's highest priority.
